

## Knowing that your bus is coming!

If you are fortunate to have a 'smart' phone or a home computer you can check if your 833 Bingham bus is on its way at this web address:

<https://bustimes.org/services/833-bingham-cropwell-bishop-orston-bingham#map>

You will see a schematic map of the 833 route (operated by Vectare for Nottsbus) showing the locations of the vehicles in service. I think it is updated every couple of minutes.

We have had various problems of poor reliability reported on the 33 route to Nottingham and Radcliffe (operated by the County Fleet Services for Nottsbus). The Parish Council is pushing for improved reliability to restore our confidence in this service and has requested that the County provide vehicle location information for the 33 route as soon as possible.

John Greenwood  
Cropwell Bishop Parish Council
