

Have your say on Bingham town centre car parking

Surveys to collect up to date and in-depth information about both on and off street car parking in Bingham town centre are underway and residents can now have their say.

All can give their thoughts at www.rushcliffe.gov.uk/binghamparking until November 29.

The survey focuses on which parts of the town and surrounding areas visitors arrive from, the purpose and frequency of their visits, their mode of transport, length of stay and usual locations to park.

It also seeks answers on what would encourage using alternative transport methods to their own personal vehicles.

Three day-long additional in-person surveys with car park users began on November 8 with local businesses being contacted directly for their thoughts.

It follows Bingham Car Parking Strategy Group meeting last month to discuss action on car parking in the town with representatives from Rushcliffe Borough Council (RBC), Bingham Town Council (BTC) and Nottinghamshire County Council.
